DOCTOR Lucky

A Cheapass Board Game
for 3-7 Players

Designed by
James Ernest

April 14, 1912.

A cold night in the Atlantic.

An errant iceberg, a titanic cruise ship, and one very lucky old man.

Doctor Lucky is a charismatic and well-respected philanthropist with a heart of gold. Of course, you secretly hate the old bastard, and you're probably going to try to kill him someday. But killing him aboard a sinking ship would be pointless.

So you've decided to save his life instead, and do it while someone else is looking. That way, even if you go down with the ship, you'll at least go down in history.

And isn't that what life is all about?

You Need: One Pawn for each player, plus one Master Pawn for Doctor Lucky.
